

# More In-Network Lab Options for You

The list below details the in-network status of laboratory testing facilities. The list is arranged by state, and is accurate as of **January 2019**. Depending on where you get care, and whether you are enrolled in a plan that uses the Horizon PPO Network or the Horizon Managed Care Network, you may be able to use BioReference Laboratories, Laboratory Corporation of America Holdings, Inc. (LabCorp) and/or Quest Diagnostic (Quest) at the in-network level of benefits. Please verify network status with the lab before you get care.
