

# Claim Editing Update Report: Fourth Quarter 2019

<i>Page</i>	<i>Section</i>
1	<b>Change Healthcare Corporation (CHC) Code Pair Additions</b> Code pair edits added to the Change Healthcare KnowledgePack Update.
85	<b>Change Healthcare Corporation (CHC) Code Pair Expirations</b> Code pair edits closed from the Change Healthcare KnowledgePack Update.
86	<b>Change Healthcare Corporation (CHC) Code Pair Changes</b> Code pair edits changed from the Change Healthcare KnowledgePack Update.
100	<b>Correct Coding Initiative (CCI) V25.3 Additions</b> Edits added in new version of CCI. Provides brief CCI policy for each edit.
104	<b>Correct Coding Initiative (CCI) V25.3 Expirations</b> Edits that were closed in new version of CCI.
106	<b>Correct Coding Initiative (CCI) V25.3 Changes</b> Changes to modifier overrides (new override = 1 or no longer overrides = 0) for existing code pairs and changes to existing edits' effective and/or expiration date.
107	<b>Correct Coding Initiative (CCI) V25.3 Deletions</b> Edits that were deleted in new version of CCI.
108	<b>Outpatient Code Editor Correct Coding Initiative (OCE CCI) V25.3 Additions</b> Edits added in new version of OCE/CCI.
112	<b>Outpatient Code Editor Correct Coding Initiative (OCE CCI) V25.3 Expirations</b> Edits that were closed in new version of OCE/CCI.
114	<b>Outpatient Code Editor Correct Coding Initiative (OCE CCI) V25.3 Changes</b> Changes to modifier overrides (new override = 1 or no longer overrides = 0) for existing code pairs and changes to existing edits' effective and/or expiration date.
115	<b>Outpatient Code Editor Correct Coding Initiative (OCE CCI) V25.3 Deletions</b> Edits that were deleted in new version of OCE/CCI.

## Instructions

### PLEASE REVIEW THE FOLLOWING IMPORTANT INFORMATION

The information contained in this report is intended to expedite review of Horizon BCBSNJ 2019 second quarter edit changes. Edits in the workbook are sorted first by denied code then by paid code in ascending numeric order. A '#' sign immediately preceding the code description denotes a deleted code. Edit source abbreviations are defined below.

CCI Edits: CCI code pair edits are code pairs that should not be reported together for a number of reasons explained in the "National Correct Coding Initiative Coding Policy Manual for Medicare Services". The CCI Additions tab contains new edits added by CCI (with policy statement). The CCI Expirations tab contains edits expired by CCI. The CCI Deletions tab contains edits deleted by CCI. The CCI Changes tab contains edits modified by CCI. Changes can include 1) Modifier Override (CCI "GB Indicator") modifications represented with a 'Modified' record and an 'Added' record, or 2) edit effective or expiration date modifications represented in one 'Modified' record. NOTE: An indicator of "1" = a modifier indicated by CCI can be used to allow payment for both codes. "0" = No modifier can be used to bypass the edit pair.

OCE/CCI Edits: CCI edits incorporated into Outpatient Code Editor (OCE). The OCE/CCI Additions tab contains new edits added by OCE/CCI (with policy statement). The OCE/CCI Expirations tab contains edits expired by OCE/CCI. The CCI Deletions tab contains edits deleted by OCE/CCI. The OCE/CCI Changes tab contains edits modified by OCE/CCI. Changes can include 1) Modifier Override (OCE/CCI "GB Indicator") modifications represented with a 'Modified' record and an 'Added' record, or 2) edit effective or expiration date modifications represented in one 'Modified' record. NOTE: An indicator of "1" = a modifier indicated by OCE/CCI can be used to allow payment for both codes. "0" = No modifier can be used to bypass the edit pair.

Change Healthcare Corporation Code Pairs: This includes code pairs based on three of the rule types in the CXT UNBUN\_PAIRS rule. These rule types are Incidental (INC), Mutually Exclusive (ME), and Parent/Child (ULT\_PARENT) editing. An Edit Rationale number is provided with each Change Healthcare Code Pair addition, which can be used to refer to the Edit Report Rationale worksheet where they are listed in numeric order. This Edit Rationale number is specific to this report only.

General Modifier Information: Modifiers -25, -57, and -59 are intended to indicate that a service/procedure that would normally be included in payment for another service/procedure should, for specific reasons, not be denied when submitted with one of these modifiers.

By default, modifier -25 will override any edit within the Change Healthcare Code Pair Additions tab where the RULE\_TYPE is ME.

By default, modifier -57 will override any edit described in the Change Healthcare Visits tab.

By default, modifier -59 will override any edit within the Change Healthcare Code Pair Additions tab where the RULE\_TYPE is ME, INC, or ULT\_PARENT.
