

Patient Protection and Affordable Care Act Preventive Drug List

In accordance with the Patient Protection and Affordable Care Act (PPACA), which is also called health care reform, certain preventive medicines are covered at 100 percent with no member out of pocket cost. All medicines, including over-the-counter items, require a prescription from the doctor and must be provided by a participating retail, or through the home delivery pharmacy.

Below is information about the medicines available. The list of medicines begins on the next page.

A summary of the categories includes:

- Low-dose aspirin to prevent cardiovascular disease for men age 45 to 79 years and to prevent cardiovascular disease and preeclampsia for women age 13 to 79 years.
- Generic bowel prep medicines required for the preparation of a preventive colonoscopy screening.
- Generic breast cancer prevention medicines for women age 35 years and older.
- Fluoride supplements for children ages six months through five years old.
- Folic acid supplements for women.
- Smoking cessation: Generic, brand-name with no generic equivalent (single source) and over-the-counter smoking cessation medicines. The daily supply limit applied to these FDA-approved tobacco cessation medicines is 180 days per member per 365 days. Brand smoking cessation medicines that do have a generic equivalent (multi-source) are covered with copayment/cost sharing, or according to your benefit design.
- Routine immunizations for children, adolescents and adults as recommended from the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.
- Iron supplementation for children ages six months to one year old who are at increased risk for iron deficiency anemia.
- Vitamin D supplementation for ages 65 years and older to prevent falls.
- Contraceptives: Generic and brand-name contraceptives with no generic equivalent (single source). Brand contraceptive products that do have a generic equivalent (multi-source) are covered with copayment/cost sharing.

This list will be reviewed periodically and is subject to change.
